TRANSFERT

Exhibition

September 16 - November 17, 2019

Opening: Monday, September 16, 7 PM

The exhibition *Transfert* focuses on the issues of migration and exile. Furthermore, the show discusses displacement within artworks: transmission of data, breaking the structures of communication and exchange of codes. The dominant motives are: phantom islands, mobile dwellings, shifting horizons, the Mediterranean as a borderline between death and survival. As a visual motto of the exhibition and an inspiration we propose a painting by Polish modernist painter Jadwiga Maziarska entitled *Transfert* (1980) from the Galeria Studio collection [above]. It could be perceived as a representation of a message: biological, linguistic, as well as artistic. The exhibition takes place on the two levels of the Galeria Studio, which is housed by the Palace of Culture and Science and is forming part of the Studio Theatre in Warsaw. The participating artists are: Teodor Ajder, Katy Bentall, Hubert Czerepok, Christina Dimitriadis, Louisa Gouliamaki, Anton Ginzburg, Agnieszka Kurant, Sehar Mapara, Ghenadie Popescu, Eliza Proszczuk, Tomasz Szerszeń, Laura Waddington and Wiktoria Wojciechowska. The exhibition features also a research project on the iconography of migration by Paweł Mościcki, and works from the Galeria Studio collection by Koji Kamoji, Jadwiga Maziarska and Erna Rosenstein.
