

Helwaser Gallery is proud to present a suite of paintings by French painter, Veronique Cauchefer for the artist's debut exhibition in New York.

Veronique Cauchefer's paintings are as dreamlike as they are timeless. Like these fantasies that transport us to an unsuspected elsewhere, the artist literally offers us the intimate and striking settings of a sublimated emotion.

Sensuality, stylistic details, it mixes openness with its decorations, plants, and masterfully takes on the intrinsic qualities of shapes and dazzling colors by adding lush details. This dive into the scenography of daily life is imbued with masterful theatricality, voluptuousness, bohemian spirit, and whimsy.

Patterns in tangy colors swarm and bubble creating richly decorative interiors, encapsulations of mysterious, complex feminine narratives. The artist's imagination is an available reality accessible to inhabit. Familiar objects sit enthroned on a table, the weather is mild, the interior invites you to settle in.
